Euro Mine Expo 2010

INTERNATIONAL
TRADE FAIR & CONFERENCE
SKELLEFTEÅ, SWEDEN
JUNE 8-10, 2010

BE PART OF THE PROGRESS

Trade fair at the heart of the mining industry
www.eurominexpo.com

Spotlighting Europe's mineral resources – and we are certain of success again

Sweden, Nolia and Georange welcome you to Euro Mine Expo 2010, an international trade fair and conference for the mining industry and its suppliers. The first Euro Mine Expo 2008 was a huge success and we are very happy to once again offer you the chance to take part of the latest developments in technology, products and services in the sector. In addition, you will also be able to discuss business, exhibit your products and services, build networks and participate in interesting seminars. Euro Mine Expo attracts great interest so make your booking in time to be sure of a place.

The conference will have three main topics:

- ▶ Securing Europe's mineral and metal resources.
- ▶ Mine of the Future.
- ▶ Mining and the Society.

We are convinced that discussions will be both exciting and informative. As before, we are preparing an extensive trade fair where you will have the opportunity to meet equipment suppliers, consulting and service companies, research scientists, investors, government authorities and industry players from all over the world.

Euro Mine Expo will be arranged in Skellefteå, at a new venue Skellefteå Kraft Arena, at the heart of Sweden's mining industry. In this region, tradition and history go hand in hand with technical development and innovative ideas, all of which you will be able to see for yourself if you take part in some of the planned field trips.

Euro Mine Expo is held every second year, with the objective of becoming the most attractive and important convention venue in Europe for representatives of the mining industry.

Take advantage of the opportunities that Euro Mine Expo 2010 offers and book your place today!
Welcome to Skellefteå!

MARGARETHA LUNDQUIST, CEO, NOLIA AB

LENNART GUSTAVSSON, CHAIRMAN, GEORANGE

ORGANIZERS:

NOLIATM

Nolia is northern Sweden's largest trade fair and conference organizer, and thus, one of the most important meeting places for business contacts in Sweden. Nolia is in demand also as a project leader and consultant for organizing a variety of national and international events.
www.nolia.se

Georange is a coordinating non-profit organization with a primary focus in Sweden's ore and mineral resources sector. The organisation's primary task is to expand the concept of national and industry-related development in the mining and minerals industry.

FORGE VALUABLE CONTACTS

MINGLE AT OUR SOCIAL EVENTS

Get-together & Mingle Party June 8, 2010

Get to know your sector colleagues and collaboration partners and forge new and valuable contacts. In conjunction with the opening of Euro Mine Expo 2010, we are organizing an enjoyable kick-off party. The cost of attendance is included in your conference registration fee.

Conference Buffet Dinner June 9, 2010

On the second day of the conference, we will be hosting a delicious buffet, with delicacies typical of northern Sweden. The cost of attendance is included in your conference registration fee.

PRE-CONVENTION FIELD TRIPS

As a participant in Euro Mine Expo 2010, you will be able to take part in a number of interesting field trips within the region's vibrant mining district. On Tuesday June 8, we are arranging trips to one of the world's most efficient smelters and to some of the well-known mines in the region.

CONFERENCE TOPICS

PARTICIPATE IN THE SEMINARS

Attend the state-of-the-art seminars within these three main themes:

1. Securing Europe's mineral and metal resources.

- ▶ Commodities and market outlook
- ▶ EU strategies for minerals and metal supply
- ▶ Challenges for Europe's extractive industries
- ▶ Sources for European supply of minerals

2. Mine of the Future.

- ▶ Best practices in Mining
- ▶ Technological Challenges in Mining
- ▶ Advancements in Mine automation
- ▶ Eco-efficient Mineral Processing

3. Mining and the Society.

- ▶ Mineral policies and regimes
- ▶ Sustainable Development and Mining
- ▶ Mining for Development
- ▶ Land use conflicts

EXHIBITORS INNOVATION FORUM

Exhibiting companies can inform visitors of their latest innovation through mini-seminars within the programme slot, Exhibitors Innovation Forum.

ACCESS NEW CUSTOMERS

EXHIBIT AT THE TRADE FAIR AND CONFERENCE

Mining in Northern Europe

Sweden produces the most iron ore in Europe and is among the leading nations in the production of noble metals in Europe. However, it is not only the large ore deposits that make the most important players in the industry turn their gaze in our direction. Sweden is also in the forefront of research and technological advancement. The development is facilitated by an extensive and modern infrastructure and a favourable business climate. The area comprising northern Sweden, Finnish Lapland, northern Norway, and north-western Russia is extremely rich in minerals and still remains under-exploited. It is right in the middle of this dynamic region that we are organizing Euro Mine Expo, with the inaugural meeting in Skellefteå in 2010. This city combines a long mining and smelting tradition with world-class institutions and a constantly growing industrial sector.
